

	Full data		Last two years	
	ELPD _{diff}	SE _{diff}	ELPD _{diff}	SE _{diff}
Bernoulli dependent	0.00	0.00	0.00	0.00
Bernoulli independent	-36.71	11.75	-4.62	3.55
Bernoulli dependent, without season	-80.50	13.08	–	–
Negative binomial dependent	-353.88	43.75	-123.76	11.64
Negative binomial independent	-400.59	45.01	-137.97	12.50
Negative binomial dependent, without season	-437.72	45.98	–	–

Table 2. Differences of the ELPDs and the standard errors of the ELPD differences.

The values in the first two columns are based on leave-one-out cross-validation with the full data, and the last two columns correspond to the ELPDs of the last two years when those years were discarded while estimating the models.
