

Review Report

Abstract:

Line 22: What was the study design?

Line 22-23: What was the gestational age of the participants at the time of recruitment? As the OGTT is done in the second trimester of pregnancy, how did you assess the risk of GDM in mid-pregnancy? Did you take the data in 1st trimester of pregnancy? Please clarify the point.

Line 26: Were the participants healthy pregnant women?

Line 26: Were the control group healthy pregnant women?
