

1. The **Discussion** section in the Abstract is not well explained. Please revise it for better clarity and depth.
2. Add more recent and relevant studies to strengthen the literature review. One recommended citation is:
R. H. Hridoy, T. Habib, I. Jabiullah, R. Rahman, and F. Ahmed, "*Early Recognition of Betel Leaf Disease using Deep Learning with Depth-wise Separable Convolutions*," 2021 IEEE Region 10 Symposium (TENSYP), Jeju, Korea, Republic of, 2021, pp. 1–7, doi: 10.1109/TENSYP52854.2021.9551009.
3. In the **Dataset Preparation** section, please provide more details about the dataset used, including information about the camera settings and conditions under which the images were captured.
4. Check lines 375 and 376 — ensure there is a space before each comma where necessary.
5. Add a discussion of the **limitations** of the study at the end of the **Conclusion** section.
6. The article contains several **punctuation** errors. Please proofread the entire manuscript carefully and correct these issues.
