Thanks to the authors for updating the manuscript. After checking their responses to my comments, I can declare that they have made a suitable major revision.

However, I have two minor comments:

- (1) Increase the size (i.e., width) of Figure 7 and Figure 9.
- (2) The authors should get another editing help from someone with full professional proficiency in English. For example, Table 2 caption "List of Symbols used" should be "List of Symbols".

For the authors in case of the authors got a chance to review the manuscript and submit the revised one after the editor's decision, please, provide a table in the revised manuscript mentioning (1) the comment, (2) the authors' response, and (3) the authors' change (if applicable). Please, consider all of the comments and don't ignore any of them.

*Please, refer to the attached file "**PeerJ 67980 R1 Reviewer.pdf**" for the same comments in an organized format.*
