REF: PeerJ Computer Science MS # 67901 - "IRImage: Open source software for processing images from infrared thermal cameras"

March 30th, 2022

Dr. Alex James

Academic Editor

PeerJ Computer Science

Dear Editor,

I would like to thank again the reviewers and Editor for their comments.

I have edited the manuscript to address the request for minor revisions. Figure 6 and the associated text in the methods section (lines 262-275 in the MS with tracked changes) and results section (lines 301-305 and 332-337) were removed as requested, and now the description of the example use case is significantly shorter. The removed Figure is now included only as supplementary material. Also, an error in the species name of the plants used was corrected (line 254).

I believe that the manuscript is now suitable for publication in PeerJ Computer Science

Sincerely,

A handwritten signature in blue ink, appearing to read "Gustavo Pereyra Irujo", with a long horizontal flourish extending to the left.

Dr. Gustavo Pereyra Irujo
