

A SHORT HISTORY OF MKNOL***Katarzyna FILIP¹, Grzegorz Grynkiewicz¹**¹*Pharmaceutical Research Institute, 8 Rydygiera Street, 01-793 Warsaw, Poland***Corresponding author e-mail: k.filip@ifarm.eu*

The Multidisciplinary Conference on Drug Research is being organized every two years since 1999 under auspices of Pharmaceutical Research Institute and constitutes a forum for presenting research results, exchange views and multi-faceted discussion between professionals associated with the broader science of medicine. The lectures cover topics in the field of medicinal chemistry, organic synthesis and technology, pharmaceutical analysis and clinical and pharmaceutical technology. Scientific program of MKNOL (Polish acronym of the conference) reflects the intention of Scientific Committee to comprise various aspects of drug discovery development process, stressing from the beginning the need for multidisciplinary communication of all researchers interested in scientific progress for betterment of human life.

Past editions of the MKNOL:

- a) I. Muszyna, 3-5 March 1999,
- b) II. Jelenia Góra-Cieplice, 5-7 April 2000
- c) III. Piła, 13-16 May 2002
- d) IV. Gdańsk-Sobieszewo 17-19 May 2004
- e) V. Darłówko Wschodnie, 15-17 May 2006
- f) VI. Przemyśl-Krasiczyn, 26-28 May a 2008
- g) VII. Zakopane, 10-12 May 2010
- h) VIII. Ossa koło Rawy Mazowieckiej, 30 May -1 June 2012
- i) IX. Korytnica koło Szydłowa, 12-14 May 2014

We hope that the X MKNOL will be also a great opportunity to share new scientific achievements.

The form of presentation proposed by the Author: oral (15 min)
